SHREDDER

Model: Aventec 2500

STABLE & SAFE

For optimum stability and safety the strong steel frame and large XL wheels keep the machine stable in use, as well as making it easy to transport.

WASTE ISN'T USELESS

AL-KO shredders are much more than machines that cut garden waste. They are specially designed to shred and cut waste in a way that increases the surface area, which accelerates the decomposition process for composting. Shredded material can be used as mulch for various applications such as shrubberies, rockeries and nutrients when composting.

SPECIFICATION	Aventec 2500
Power	2500 W
Voltage	230 V
Zero voltage switch	Yes
Fuse (slow)	10 Ampere B
Branch Max	45 mm
Height	95 cm
Weight (approx.)	23 Kgs
